DECLARATION OF CONFORMITY Nr. 2025–15

The following product is intended for use with casting tubes. The product is inserted into both ends of the casting tube, which has been cut to length.

To achieve the desired wall thickness, the pipe length must be shortened by the height of the cone (2 x 10 mm), approximately a total of 20 mm.

During storage, the products must be protected from direct sunlight, for example with a black packaging or covering film.

Material: Polyolefin (PO)

- 5422** Support cone 22mm (bag 500pcs)
82230 Support cone 22mm bag/50pcs
