Strength in every **connection**

Arras OÜ, established in 1999, is one of the largest manufacturers and wholesalers of fastening equipment in Northern Europe today. Our headquarters in Estonia, combining office, production, and warehouse space, covers over 4,700 m², ensuring seamless and efficient operations. Our aim is to be a reliable, innovative, and personalized supplier to our partners, ensuring the provision of high-quality products and services. To guarantee top quality, we hold ISO 9001 quality management certification, ETA approvals, and CE marking. Through continuous digitalization, automation, and engagement with various ESG topics, we are cementing the longevity of our company.

Arras OÜ products are manufactured using the latest technologies, ensuring high quality and precision. Our production processes rely on advanced automatic stamping lines with capacities ranging from 40 to 250 tons, supported by packaging lines.

We are pleased to present this catalogue, which provides an overview of our products and their applications. We hope you find it informative and engaging.

PREFIX – FIX IT BEFORE YOU FIX IT

Arras PreFix is a connector range designed to simplify installation on site.

Integrated spikes allow the connector to be pushed into position and held securely without tools, giving installers the freedom to work faster, more accurately, and with better control from the very first fix.

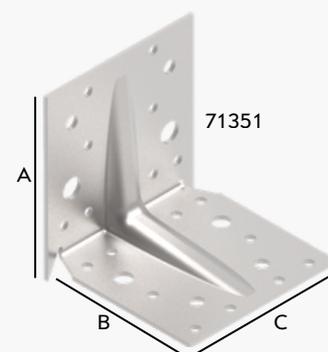

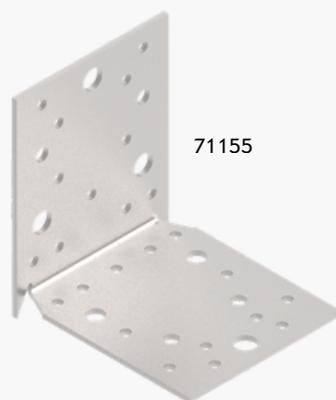

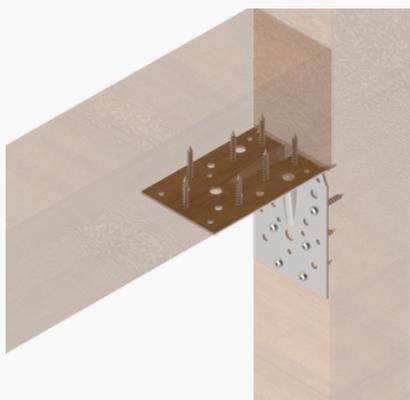

Built for real working conditions, PreFix saves time where it matters most – at installation.
